Dangers in Tanning:

As with natural sunlight, overexposure can cause eye and skin injury and allergic reactions. Repeated exposure may cause premature aging of the skin and skin cancer. **WEAR PROTECTIVE EYEWEAR; FAILURE TO MAY RESULT IN SEVERE BURNS OR LONG TERM INJURY TO THE EYES.** Consult physician before using sunlamp if you are using medications or have a history of skin problems or believe yourself especially sensitive to sunlight. Children, the elderly, or fair skinned people who always burn easily and either never tan or tan minimally should not use this equipment. Never tan more than once a day. Tan normally appears after the first few sessions and maximizes after the first four weeks.

Medications that have sensitivity to sunlight:

Antimicrobial Agents

- * Tetracyclines, especially Demeolocyline
- * Sulfonamides, especially sulfanilamide
- * Griseofulvin
- * Halogenated salicylanilides

Other Drugs:

- Phenothiazines, especially Chlorpromazine
- Thiazides
- Psoralens
- Sulfonylureas

Before Tanning:

- Your skin should be free of cosmetics, oils, or other body lotions prior to tanning except for those specifically made for use with tanning devices. Your hair should be free of gels, mousses, sprays, or other hair products prior to tanning. These products can cause damage to the sun bed acrylic. As an alternative, a shower cap or towel can be worn to keep treated hair away from the sun bed surfaces.
- Natural body oils aid in moisturizing the skin. Try not to bathe or shower immediately before tanning.
- This unit intended for individual use.

Precautions are necessary for safe tanning. I agree that I will comply with all instructions on the use of the UVA tanning system, and that I am using these services at my own risk, and protecting my vision by using the goggles provided.
